Part B. CV SUMMARY

Lola Burgueño obtained her PhD with honors in Computer Science from the University of Málaga in 2016. Her thesis, supervised by Prof. Vallecillo (University of Málaga) and Prof. Wimmer (Technological University of Vienna) addressed the field of Model-driven Engineering. Apart from her regular visits to Vienna, she spent 7 months in the United States as part of two research stays: 4 months at the University of Alabama under the supervision of Prof. Jeff Gray in 2014, and 3 months at Vanderbilt University with Prof. Gabor Karsai in 2016 as a postdoctoral researcher; and 6 months in Canada working together with Prof. Houari Sahraoui at the Université de Montréal in 2022. Between 2018 and 2020, she did a postdoc at UOC (Barcelona) and CEA LIST (Paris, France) fully funded by CEA LIST. From July 2020 until September 2023, she was a Juan de la Cierva Incorporación Fellow. Currently, she is an associate professor at the University of Málaga.

Her research interests focus mainly on the field of Model-Driven Software Engineering. She has made contributions to the application of artificial intelligence techniques to improve software development processes; uncertainty management during the software design phase; model-based software testing, and the design of algorithms and tools for improving the performance of model transformations.

Her work has been of interest to the community, with papers published in the main venues (e.g., TSE, IST, TOSEM, JSS, SoSyM, CAiSE, or ICSE NIER), some of which have been awarded. She has been invited to deliver **keynote/talks** in international events such as the ISPR'23 and Modelsward'26 conferences, the Lowcomote and OCL workshops and the DiverSE Seminar among others, and MSc courses at UUlm (Germany) and TU Wien (Austria). She has received **regular invitations** to Bellairs and Dagstuhl workshops, and funded visits to research groups (e.g., BIG research group of TU Wien, and IRISA in Rennes). She maintains an active and continuous participation in international events, performing roles not only in their **organization**, but also as a member of its **program committees**. She has been the **PC Chair** of three international conferences and one Spanish one. She is also in the **Editorial Board** of the SoSyM journal and has received the **best reviewer award** of the MODELS conference.

Some **indicators** of her research activity include:

- 25 journal papers, most of them indexed in JCR first or second quartiles (Q1, Q2) at the time of publication
- 11 conference papers published in top venues according to the GGS ranking: 5 in MODELS, 2 in RE, 1 in ICSOC, 1 in CAiSE, 1 in ASE, and 1 in ICSE-NIER
- 56 papers in peer-reviewed conferences, 46 international and 10 national (Spanish).
- 1 book chapter
- According to DBLP, she has 138 different co-authors.
- Her Google Scholar h-index is 23

She is currently supervising 3 PhD students, who are in their 1st, 2nd, and last year, respectively. She has supervised two internships with a strong research focus: María Galvez (Jun-Dec 2021) and David Delgado (Dec 2021-July 2022), funded by UOC internal competitive call.

The **community service** activities that she has carried out include:

- PC co-chair of ECMFA'21, SLE'22, JISBD'25 (Spanish) and ICWE'26.
- General chair of MODELS'26.
- Chair/Organizer of numerous events (e.g., ACM Student Research Competition of ICSE'25, publicity chair of RE'25, students volunteer chair of MODELS'21, workshop chair of STAF'19, Educators Symposium co-chair of MODELS'18, PhD Symposium chair of ICSOC'17, etc.)
- She started the MDE Intelligence workshop series and has been leading it in its 2019-2025 editions
- She has given 11+ keynotes, invited talks and course lectures
- She has participated in 4 plenary panels in international conferences
- Editor of 2 SoSyM Theme Issues (2022, 2024) and 1 JSS Special Issue (2023).
- Regular PC member in top-ranked peer-reviewed events (e.g., ICSE, ASE, MODELS...)
- Regular reviewer in indexed journals such as TSE, ASE, JSS, EMSE, SoSyM, etc.

She is member of the ACM and SISTEDES (Spanish). She is an associated editor of the Software & System Modeling journal (JCR-indexed), Jan 2021-; and **regular reviewer for the Spanish State Research Agency** (Agencia Estatal de Investigación, AEI), 2021-. She has also acted as **external reviewer for NSERC** (major agency responsible for funding engineering research in Canada).

She is also an active member of the **Diversity & Inclusion** working group of Informatics Europe, having co-organized the latest workshop at the European Leaders Summit (ECSS 2025). She is involved in local initiatives such as ComoTú and Cátedra Hedy Lamarr, which aim to increase the visibility of women in STEM, and regularly visits (high) schools to give talks, raising awareness and demystifying stereotypes.

During her career, she has received the following **awards/recognitions**:

- Best PhD Thesis at the ISDM track at JISBD'22
- Distinguished reviewer award (MODELS 2021)
- 2 Best paper awards (MODELS 2015 and 2018)

- Recipient of the competitive Spanish post-doctoral fellowship JdC-I
- Accessit to the National Best PhD Thesis, awarded by the Spanish Society of Software Engineering (SISTEDES).
- Bronze medal at the ACM Student Research Competition at MODELS 2015
- Awarded with two competitive pre-doctoral grants (FPI and FPU) to undertake her PhD.
- Best Graduate Student Award (Premio Extraordinario Fin de Carrera), 2010.

She has taught **courses** in official BSc and MSc degrees at the University of Málaga, Marbella International University Centre (an English-speaking private university) and the Open University of Catalonia, as well as courses based on agreements with private companies such as Accenture. She supervises several Bachelor's and Master's theses every year, some of them with published research results and with agreements with companies.
